

**Eastern  
Health**  
**Health Sciences Centre**  
**Clinical Microbiologist**  
**Laboratory Medicine (Microbiology)**  
**Permanent, Full-Time**

**Eastern Health Authority** is the major Health region of four serving the Province of Newfoundland. The City of St. John's has two large sites, the Health Sciences Centre and St. Clare's Mercy Hospital, that offer full service Clinical Microbiology Laboratories and work closely under a single administrative unit. The Health Sciences Centre is the largest hospital in the Province, and serves as a referral center for the rest of the Province and as a major teaching hospital for Memorial University. The Health Sciences Centre is situated on the campus of Memorial University in the City of St. John's. The Division of Clinical Microbiology provides adult and pediatric clinical microbiology services to both the region and the Province. The successful candidate will join a very busy team of Ph.D. Clinical Biochemists, Molecular Geneticists, Cytogeneticists, Medical Microbiologist, and Pathologists to provide laboratory services to Eastern Health and its affiliated hospitals throughout the Province.

The Department of Laboratory Medicine with Eastern Health Authority invites applicants for a full-time Clinical Microbiologist position to serve in the Division of Clinical Microbiology.

**Job Description**

The successful candidate will have analytical/technical supervisory and clinical service responsibilities within the routine and specialty Clinical Microbiology Laboratories located in St. John's under the Eastern Health Authority. The successful candidate's responsibilities will include formal interactions with Clinical Microbiology Laboratories in the Regional Health Authorities outside of Eastern Health with designated authority provided by each RHA for specific issues related to their subspecialty. This includes providing expert technical and medical advice to all exiting staff where appropriate. The position offers the opportunity to work in our OLA accredited laboratories and working with all Clinical Microbiology Laboratories towards providing standardized services in the Province. Through strong formal affiliations with Memorial University, the successful candidate will be eligible for a clinical faculty appointment in the Department of Laboratory Medicine and will be encouraged to participate in collaborative research activities. The ideal candidate will be a team player and have strong communication and excellent interpersonal skills to function as a consultant to clinicians as well as non-clinical staff. Previous experience in Clinical Microbiology service would be an asset.

**Qualifications:**

Candidates must hold a PhD in Medical Microbiology, or closely related field and be certified, or eligible for certification, by the Canadian College of Microbiology or the American Board of Medical Microbiology. Training in an accredited fellowship-training program is highly desirable.

**Salary:** In accordance with the Hay Management Pay Plan

**Hours of Work:** 70 hours bi-weekly

**Competition #:** 2011003720

To apply for the above position, please forward a resume stating qualifications, experience, references and the competition number to the undersigned:
